

June 8, 2026

It is my pleasure to write this letter of recommendation for Katherine Keenan. I have had the privilege of knowing Katherine since August 2025 in my capacity as her SUNY Brockport Student Teacher Supervisor, where she successfully earned her Bachelor of Science in Adolescence Inclusive Education with a concentration in English Literature. During this time, I had the opportunity to observe Katherine's instructional skills and personal qualities that make her effective in the classroom.

Katherine consistently employs a variety of instructional strategies to meet the diverse learning needs of her students. Through differentiated support, and hands-on activities, she creates meaningful pathways to success and ensures that all students can access and participate in learning.

Katherine's teaching style is characterized by a level of patience, warmth, and professionalism that is uncommon in an educator at this stage of her career. She establishes clear expectations and provides thoughtful guidance while creating a learning environment where students feel supported rather than pressured. Her calm demeanor fosters confidence in her students, allowing them to take risks, ask questions, and engage fully in the learning process.

Katherine is also highly reflective and committed to continuous improvement. She welcomes feedback with professionalism and maturity. Throughout the semester, she sought input and implemented changes that both enhanced her instruction and student learning. Her growth mindset and willingness to refine her craft are qualities that will serve her well throughout her career.

Katherine's dedication to teaching, commitment to student growth, and reflective approach to her practice make her an exceptional candidate for a teaching position. She combines strong instructional skills with genuine care for her students. I am confident that she will be an asset to any school community and have no doubt that she will positively influence the students and colleagues with whom she works. I look forward to seeing the valuable impact she will have throughout her teaching career.

Please feel free to contact me if you require any additional information.

Sincerely,

Ritajo Brindle
University Supervisor of Student Teachers
